

Open Banking - Sharing your data and making payments through other providers: how are we doing?

Since 2018, you've been able to share your Barclays data with other companies so that you can use their services and make payments through them. For example, you might want to share your Barclays data with a company that lets you operate all your accounts from one place. This is called 'Open Banking'.

To make sure you're getting the best service from us when you use Open Banking, we've put together the data below, which tells you how well we're performing. It shows how fast our service has been and whether there have been times when it isn't available.

Most of them compare our Open Banking services to our digital banking services. By 'digital banking services', we mean the Barclays.Net and Barclays iPortal

Is our Open Banking service available consistently?

Percentage time available - This information compares the amount of time our Open Banking service was available to the amount of time our digital banking services were available over the last three months.

Sometimes we plan outages so that we can release new features or carry out maintenance. We've included all the time our Open Banking service and digital banking services weren't available in the table, whether or not the outage was planned. We always let our customers know when we've planned outages and we give them details of other ways of doing their day-to-day banking.
