When you’re running a business you’re always on the go. So keeping on top of your banking can be challenging.

iPortal is currently available on different devices, with functionality tailored to each device. The iPortal app currently shows account balances and transactions, and we plan to enhance it to include alerts and payment approvals in the future.
Banking made effortless

Everything’s together in iPortal, bringing new levels of simplicity and efficiency to your business’ banking. iPortal’s single-point of access to our digital products and services means you can spend less time banking and more time focusing on your business.

Get an overview of your Barclays Corporate Banking relationship at a glance.

Consolidated approvals for Payments, Lending and Trade Services in one place.

Secure, single sign-on process.

Receive alerts while on the go, and view balances and authorise payments using the iPortal mobile app*.

Solving your business’ banking challenges

We know that traditional online banking systems don’t always make life easy for businesses. Click on a challenge below to discover how iPortal can help.

- I can’t check my account while I’m out of the office
- There’s sometimes more options than I need
- I have so many passwords/PINs and tokens to remember
- When Barclays give me a new system we have to take time out to understand it
- I find it difficult to see what’s going on in one glance
